

### 3 都立高校の入試の仕組み

都立高校の入試には、推薦に基づく入試（推薦入試）と学力検査に基づく入試（第一次募集・第二次募集・分割募集）があります。

なお、エンカレッジスクールやチャレンジスクールのように学力検査によらない入試を行う学校もあります。

推薦に基づく入試（推薦入試）

- 推薦入試の目的は、以下のとおりです。

基礎的な学力を前提に、思考力、判断力、表現力等の課題を解決するための力や、自分の考えを相手に的確に伝えるとともに、相手の考えを的確に捉え人間関係を構築するためのコミュニケーション能力など、これからの社会にあって生徒たちに必要となる力を評価し、選抜する。

- 推薦入試は、主に都立高校全日制課程で実施します。対象となるのは、以下の二つの条件を満たす生徒です。

- (1) 令和5年12月31日現在、都内在住で、都内の中学校に在学していて、入学後も引き続き都内に在住し、令和6年3月に都内の中学校を卒業する見込みの生徒
- (2) 志願する都立高校を第1志望とする生徒

- 推薦入試には、以下の3種類があります。

#### (1) 一般推薦

- 一般推薦に志願する意思があり、在学している中学校長の推薦を受けた生徒が応募できます。
- 検査は、集団討論、個人面接、小論文又は作文、実技検査、その他学校が設定する検査を組み合わせ実施します。集団討論と個人面接、小論文又は作文、実技検査、その他学校が設定する検査の内容については、各学校で定めます。
  - ・ 集団討論と個人面接は、原則として全ての学校で実施します。（集団討論を実施しない学校もあります。）
  - ・ 小論文又は作文、実技検査、その他学校が設定する検査は、それらの中から各学校が一つ以上を選んで実施します。
- 選考は、調査書点のほか、集団討論及び個人面接、小論文又は作文、実技検査、その他学校が設定する検査の各点数を総合した成績で行います。

調査書点	集団討論・個人面接点	小論文又は作文点	実技検査点	その他学校が設定する検査の点数

### 3 Tokyo Metropolitan High School Entrance Examination System

There are two types of admission screenings for Tokyo metropolitan high schools: a recommendation-based admission process and an academic achievement test-based admission process (first and second round admissions/two-phase application period).

Also, some schools such as Encouragement schools and Challenge schools use systems that are not based on academic achievement tests in the screening process.

#### Recommendation-based Admission screenings (Recommendation-based Admissions)

- The objective of recommendation-based admissions is outlined below.

The objective of recommendation-based admissions is to evaluate students on skills such as problem solving, including the ability to think, make decisions and express oneself. Moreover, the ability to engage in communication that builds human relationships, including accurately expressing one's own opinion and understanding how others think as well as other skills that students will need in future society are evaluated, while recognizing their basic academic abilities.

- Recommendation-based admissions are mainly offered at full-time Tokyo metropolitan high schools. Students who meet all of the requirements listed below are eligible to apply.

- 1) Students who reside in and are enrolled in a junior high school in Tokyo as of December 31, 2023 and will continue to reside in Tokyo after entering high school and are expected to graduate from junior high school in Tokyo in March 2024.
- 2) Students who designate a Tokyo metropolitan high school as their **first choice**.

- The three types of recommendation-based admissions are as follows.

#### (1) General Recommendations

- Students who intend to apply through the general recommendation-based admission process and whose application has been endorsed by the principal of the junior high school they attend are eligible to apply.
- The screening process combines a group discussion, individual interview, an essay or composition, practical test with other tests prepared by the school. Each school will decide on the contents of the group discussion, individual interviews, essay or composition, practical test and other tests prepared by the school.
  - In principle, all schools will require a group discussion and individual interviews (although some schools do not require a group discussion).
  - Each school chooses and requires one or more from the following options: essay or composition, practical test and other tests prepared by the school.
- The selection is based on the overall score from points earned through a group discussion and individual interview, essay or composition, practical test and other tests prepared by the school in addition to the student transcript points.

Student transcript	Group discussion and individual interview	Essay or composition	Practical test	Other tests prepared by the school
Overall score				

## (2) 文化・スポーツ等特別推薦

- 文化・スポーツ等特別推薦に志願する意思があり、在学している中学校長の推薦を受けた生徒が応募できます。文化・スポーツ等特別推薦は、実施する学校と実施しない学校があります。また、募集人員は、一般推薦の募集人員の内に含まれます。
- 検査は、文化・スポーツ等特別推薦を実施する全ての学校で、個人面接又は集団面接及び実技検査を実施します。作文など、その他の検査を実施する場合は、各学校で内容を定めます。
- 選考は、調査書点のほか、個人面接又は集団面接、実技検査及び各学校が定めたその他の検査の各点数を総合した成績で行います。

## (3) 理数等特別推薦

- 理数等特別推薦に志願する意思があり、在学している中学校長の推薦を受けた生徒が応募できます。
- 検査は、理数等特別推薦を実施する立川高校の創造理数科で、科学分野等の研究に関するレポートについての口頭試問、個人面接及び小論文を実施します。
- 選考は、調査書点のほか、科学分野等の研究に関するレポートについての口頭試問、個人面接及び小論文の各点数を総合した成績で行います。
- 科学技術高校の理数科においても、理数等特別推薦を実施する予定です。

- 推薦入試における調査書点は、調査書における各教科の観点別学習状況の評価(全27観点)又は評価(9教科)のどちらか一方を点数化します。  
 点数化するに当たり、観点別学習状況の評価を用いる場合は、各都立高校の特色に応じて、特定の観点の配点を高くするなどして活用します。  
 なお、エンカレッジスクールとして指定された都立高校は、観点別学習状況の評価を用います。
- 各学校の募集人員に占める推薦入試の募集人員の割合については、11月上旬に発行予定の「令和6年度東京都立高等学校募集案内」で確認してください。

## **(2) Special Recommendations (culture, sports etc.)**

- Students who intend to apply through the special recommendation-based admission process (culture, sports etc.) and whose application has been endorsed by the principal of the junior high school they attend are eligible to apply. Not all school offers the admissions based on the special recommendations (culture, sports etc.). In addition, the number of openings is included as part of the total number of general recommendation openings.
- All the schools which offer the admissions based on the special recommendations (culture, sports etc.) will require individual interviews or group interviews and practical tests. When other tests such as composition are required, each school will decide on the topic or contents.
- The selection is based on the overall score from points earned through the individual interview or group interview, practical test and other tests prepared by the school in addition to the student transcript points.

## **(3) Special Recommendations (science, mathematics etc.)**

- Students who intend to apply through the special recommendation-based admission process (science, mathematics etc.) and whose application has been endorsed by the principal of the junior high school they attend are eligible to apply.
- The examination for the special recommendations (science, mathematics etc.) include oral examinations on a research report of a scientific field etc., individual interviews and essay, which will be required by Creative Science & Mathematics program of Tachikawa High School.
- The selection is based on the overall score from points earned through the oral examinations on a research report of a scientific field etc., individual interviews, and essay in addition to the student transcript points.
- In addition, Science & Mathematics program at Kagaku Gijutsu High School is scheduled to offer this special recommendation-based admission process (science, mathematics etc.).

- In the recommendation-based admissions, either an evaluation of the learning progress of each subject based on various viewpoints (27 viewpoints in total) or the grades (of nine subjects) are converted into points.

When schools employ the evaluation of learning progress based on various viewpoints, they may allocate more points to some viewpoints than others, taking the characteristics of each school into consideration.

Tokyo metropolitan high schools designated as Encouragement schools employ the evaluation of learning progress based on various viewpoints.

- For more information on the proportion of recommendation-based admissions' openings to the overall number of openings for each school, please refer to the "Tokyo Metropolitan High Schools Guide to Admissions 2024 Academic Year" to be issued in early November.

学力検査に基づく入試（第一次募集・第二次募集・分割募集）

都立高校では、原則として全校が第一次募集を行います。第一次募集の結果、入学手続き人員が募集人員に達しない学校は、第二次募集を行います。

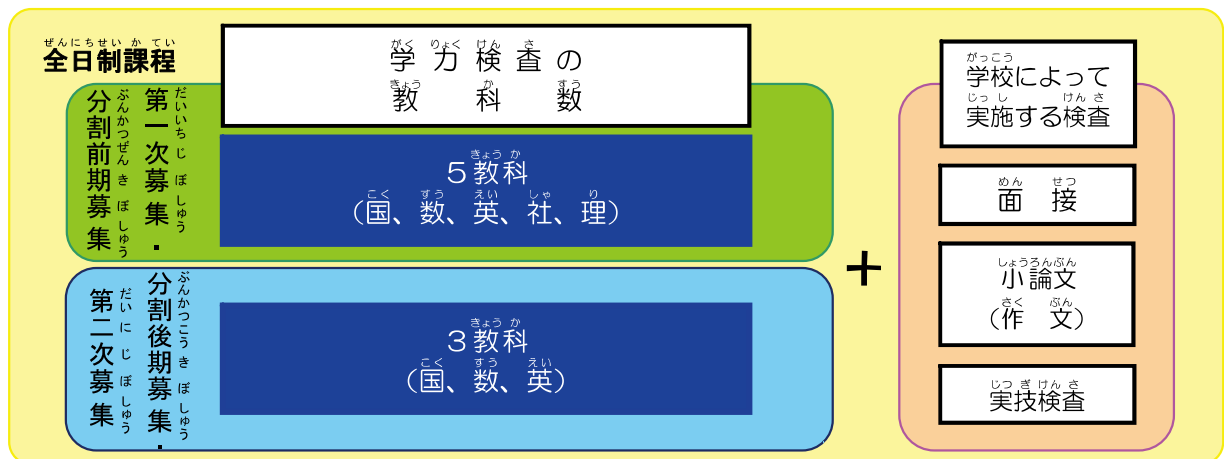

ただし、分割募集といい、あらかじめ募集人員を分割し、第一次募集期間における募集（分割前期募集）と第二次募集期間における募集（分割後期募集）の2回に分けて募集を行う学校があります。

● 受検教科

【全日制課程】

第一次募集・分割前期募集では、原則として、国語、数学、英語、社会、理科の5教科を実施します（ただし、芸術及び体育に関する学科については、当該学科に関する能力、適性等をみるため実技検査を行うことから、学力検査は3教科となります。）。また、分割後期募集・第二次募集では、原則として、国語、数学、英語の3教科を実施します。

なお、学校によっては、学力検査に加え、面接、小論文又は作文、実技検査を実施する場合があります。

## Academic Achievement Test-based Admissions

(First round of admissions, Second round of admissions, Two-phase application)

In principle, all Tokyo metropolitan high schools implement the first round of the admission tests. Schools that do not fill their number of openings as a result of the first round will implement a second round of the admission tests.

However, some Tokyo metropolitan high schools administer “two-phase application,” dividing the number of openings beforehand and recruiting students in two phases: recruitment for the first round of admissions (first phase of application period) and recruitment for the second round of admissions (second phase of application period).

- Subjects of the tests

### [Full-time Course]

The recruitment for the first round of admissions/first phase of application period requires the academic achievement tests in five subjects (Japanese, math, English, social studies and science) as a rule. (However, as for art and physical education programs, academic achievement tests are required in three subjects because a practical test is required to see the applicant's ability, suitability etc. for those subjects). The recruitment for the second round of admissions/second phase of application period requires academic achievement tests in three subjects (Japanese, math and English) as a rule.

Some schools may require an interview, essay or composition and practical test in addition to the academic achievement tests.
